

THE IMPORTANCE OF UTILIZING MULTIPLE BOOKING SITES

— To Increase & Maximize Reservations —

The world of the travel agent is quickly becoming a thing of the past. Though hotels still have the majority share of the vacation market, the concept of home sharing has been something that has been growing in popularity for the past few decades and is most likely going to continue. Over the past several years, the concept of home sharing has boomed with the popularity of Air BnB and social media sharing platforms. Today's traveler wants the flexibility of sitting on their couch to book their next vacation and the ability to search multiple sites in order to find the best rental rates.
